Print: 2147-5105

Online: 2147-5369

## How are conferences evaluated for inclusion in the AWERProcedia Information Technology and Computer Science?

Conference proceedings are accepted for publication in the *AWERProcedia Information Technology and Computer Science* based on suitability of scope and are required to meet certain quality and ethical criteria, including the assurance that all papers are original work by the authors, will be subject to peer review and that the same paper will not be published elsewhere. AWER-Center will evaluate all proposals on the bases of key information related to the conference provided by the organizers, including, but not limited to, the conference website, programme, review process, supporting organization and contact details of the committee and keynote speakers. AWER-Center may make contact with members of the committee and keynote speakers to obtain further information about the conference during the evaluation process.

## Important Note

During review process we use iThenticate plagiarism software. So it is recommended to the authors should scan with iThenticate plagiarism or other free plagiarism software of their manuscripts.
